

Reception		
Objective / strategy	Concrete	Pictorial
Match and sort		
Compare amounts	Use toys and general classroom resources for children to physically manipulate, group/regroup.	
Representing, comparing, composition of numbers 1-10 (completed in phases throughout the year)		
One less	Use specific maths resources such as snap cubes, Numicon, bead strings etc.	
Taking away		
Even and odd	Use visual supports such as ten frames, part part whole and subtraction mats, with the physical objects and resources that can be manipulated.	
		
		A group of pictures for children to cross out or cover quantities to support subtraction.
		Use visual supports such as ten frames, part part whole and bar model with pictures/icons.
		A focus on symbols and numbers to form a calculation. No expectation for children to be able to record a number sentence/addition calculation.

Year 1			
Objective / strategy	Concrete	Pictorial	Abstract
Taking away ones	 <p><math>6 - 4 = 2</math></p> <p><math>4 - 2 = 2</math></p> <p>Use physical objects, counters, cubes etc to show how objects can be taken away.</p>	 <p><math>6 - 4 = \underline{\quad}</math></p> <p>Cross out drawn objects to show what has been taken away.</p>	<div style="border: 1px solid black; padding: 5px; display: inline-block;"> <math>7 - 3 = 4</math> </div>
Counting back	 <p>First      Then      Now</p> <p>Move objects away from the group, counting backwards.</p> <p>Move the beads along the bead string as you count backwards.</p>	 <p><math>5 - 3 = 2</math></p> <p>Ten frames, number tracks and single bar support reduction.</p>	<p>Put 7 in your head and count back 3.</p> <p>What number do you arrive at?</p>

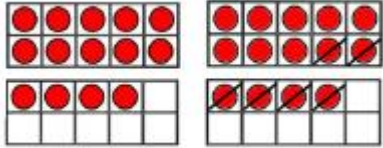

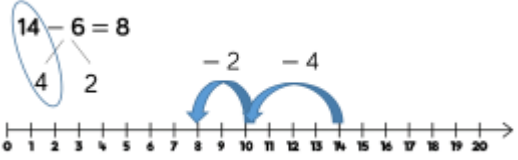

# Calculation policy

# Subtraction

<p>Finding the difference</p>	 <p>Lay objects to represent bar models.</p>	 <p>Count on using a number line to find the difference.</p>	<p>Hannah has 12 sweets and her sister has 5. How many more does Hannah have than her sister?</p>
<p>Represent and use number bonds and related subtraction facts within 20 (part, part, whole model).</p>	 <p>Link to addition. Use Part, part whole model to show the inverse using concrete objects.</p>	 <p>Use pictorial representations or drawings to show the part.</p>	 <p>Move to using numbers within the part whole model.</p>

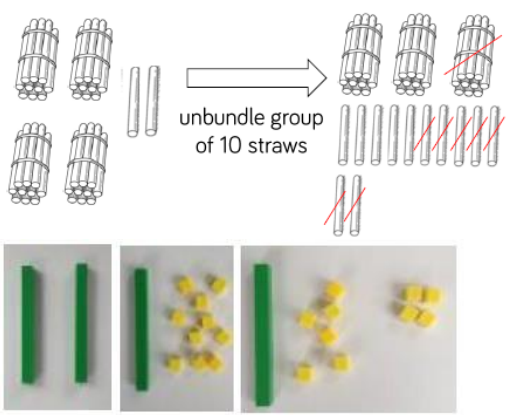

# Calculation policy

# Subtraction

<p>Make 10</p>	 <p><math>14 - 6 = 8</math></p> <p>4 2</p> <p>Make 14 on the ten frame. Take away 4 to make ten, then take away 2 more.</p>	 <p>Children should be encouraged to find the number bond to 10 when partitioning the subtracted number. Ten frames, number shapes and number lines are particularly useful for this.</p>	<p><math>14 - 6 = 8</math></p> <p>How many do we take off first to get to 10? How many do we have left to take off?</p>
<p><u>Key vocabulary and questions</u></p> <p>-, subtract, take (away), minus leave, difference between, (half, halve) =, equals, sign, is the same as</p> <p>how many are left/left over? how many have gone? one less, two less, ten less... how many fewer is... than...? how much less is...?</p>			
<p>Year 2</p>

Year 6

Objective / strategy

Concrete

Pictorial

Abstract

Calculation policy

Subtract with increasingly large and more complex numbers and decimal values.

$$\begin{array}{r}
 \cancel{9} \cancel{8} \cancel{0}, 699 \\
 - \quad 89,949 \\
 \hline
 60,750
 \end{array}$$

$$\begin{array}{r}
 \cancel{9} \cancel{0} 5 \cdot 419 \text{ kg} \\
 - \quad 36 \cdot 080 \text{ kg} \\
 \hline
 69 \cdot 339 \text{ kg}
 \end{array}$$

Insert zeros for place value holders.

Key vocabulary and questions

subtract, subtraction, take (away), minus, decrease, leave, how many are left/left over?

difference between, half, halve

how many more/fewer is... than...?

how much more/less is...?

equals, sign, is the same as, tens boundary, hundreds boundary units boundary, tenths boundary

inverse
